An Introduction to Co-operative Practice

Studies and Reports, New Series, No. 32

Second Impression

A practical guide for communities or groups on how to set up and run co-operative societies. The main object of this study has been to show what types of co-operative societies might be of value to economically underdeveloped countries, and, in the light of broad international experience, to analyse briefly the chief conditions likely to affect the organisation, administration and operation of these societies.

CONTENTS
